

For personal application instructions.

Read all instructions prior to applying WallStick to wall:

- This process is recommended for two people!
- You simply have to peel the back of decal off (start at the top) and remove the paper from the top of the decal.
- Line up the top 6" of WallStick on the wall, verify it is straight.
- After you have completed this, slowly roll the back of the backing off and smooth out material on wall as you go along.
- Continue this process until completed.
- Stand back and admire your WallStick!

* Clean the wall prior to applying WallStick

* If freshly painted walls, make sure walls have been dry for at least 48 hours

* Keep the backing of your WallStick if you ever plan to relocate to another wall
